SAFE ANCHORED SLEEP

Anchor Assembled

Top Part
of the Anchor

Bottom Part
of the Anchor

Quick Release Buckle

Harness

ANCHOR SETUP INSTRUCTIONS

1. Place the bottom part of the anchor between the bedsheet (fitted sheet) and the mattress (Fig. 1).

Fig. 1

Fig. 2

2. Slide the bottom part to the desired position (Fig. 2). Keep in mind that the head of the child must be inside the perimeter of the bed when the strip is fully extended.

Fig. 3

3. Grab the bottom part of the anchor by the two flat edges with one hand, while holding the top part of the anchor with the other hand (Fig. 3). The two pieces will ONLY fit if the lines marked on the top of the anchor are lined up with the two flat edges on the bottom part of the anchor.

4. PUSH the top of the anchor down towards the mattress and rotate it clockwise past 90 degrees (Fig. 4).

Fig. 4

Fig. 5

5. If the top part of the anchor does not turn past 90 degrees, gently pull the strip attached UPWARD tensing the bed sheet and grab the two flat edges again (Fig. 5), then complete the rotation.

6. Always check the "Anchor" is secured by firmly pulling, twisting, and wiggling the strip that is attached to the top part of the anchor.

WARNINGS: Before using, please check the Baby Safe Sleep Guidelines.

- Do not use the product if any section of the strip has tear.
- Failure to verify the integrity of the product before its use can decrease the effectiveness of the product to prevent the child from falling out of bed.
- Use common sense before and during the use of the product.

CAUTION: Adult installation is required and always check that the fitted sheet is tight to the mattress.

HARNESS SETUP INSTRUCTIONS

1. Lay the harness flat open near the "Anchor" on the bed (Fig. 1).

Fig. 1

2. Place the child face up or face down on the harness. Make sure that the side straps are evenly next to the waist of the child (Fig. 2).

Fig. 2

Fig. 3

3. Move the bottom strap upwards (Fig. 3).

4. Use the side straps to adjust the tightness of the harness to the waist of the child (Fig. 4).

Fig. 4

5. Once the desired tightness is achieved fold down the left-over fabric over the side straps so that the hook and loop fasteners attach safely (Fig. 5).

Fig. 5

Fig. 6

6. Once the harness is safely secured to the child, connect the two parts of the quick release buckle (Fig. 6).

WARNING: Do not tumble dry. The dryer may shrink parts and make them unsafe.

Now the Baby GRASPER is ready, and you can have some peace of mind while your child sleeps.
